

# CAPITAL CHRISTIAN HIGH SCHOOL

Kinetic Robotics, CCHS (Capital Christian High School)  
Oct 2019

*Greetings Potential "Kinetic Robotics" Partner/Sponsor!!*

#### About us ...

**Kinetic Robotics** is a team of *extraordinary* students at Capital Christian High School, geared towards one main goal: **to excel in the knowledge of Science, Technology, Engineering and Math (STEM)**. My vision for these students is to give them the education, opportunity, and outlet that they otherwise would not receive. We focus on learning-by-doing ... providing students with hands-on opportunities to learn skills that will shape their upcoming college decisions and career choices. We keep the "door" open for any student that expresses an interest in Robotics and work around schedules to make it happen.

#### Partners / Sponsors / Friends!!

As we enter our 6th year as a robotics team, we have a strong desire to keep our program thriving!! We've been blessed by partnerships with NASA and the Brin Wojcicki Foundation. But are **looking for partners/sponsors that can help us reach our goals.**

If you are interested in learning more about our team and riding along with us in this journey we would love to add you to our list of sponsors/friends that we keep in touch with throughout the year. Here you can learn about what we are involved with and how sponsorships and partnerships have helped us along the way.

For those wanting opportunities to be a partner/sponsor (visible or silent) we are in need of material and financial partners and everything in between. Our visible partners and sponsors are recognized with full-color visibility on our banners, website, and social media and will be proudly displayed on our T-Shirts and even our robot!

***We would love to have you join as a partner/sponsor of the Kinetic Robotics Team! Join our mailing list or request info at the links on our site.***

Thank you for your time and consideration!
